**Notes for Tables 10, 11 & 12**
**Remedial Investigation Report**
**Greenpoint Energy Center Site**
**Greenpoint, NY**

**Notes:**

mg/kg - milligrams/kilogram or parts per million (ppm)
mg/L - milligrams/liter
BTEX - benzene, toluene, ethylbenzene, and xylenes
VOCs - volatile organic compounds
PAHs - polycyclic aromatic hydrocarbons
SVOCs - semivolatile organic compounds
PCBs - polychlorinated biphenyls
TCLP- toxicity characteristics leaching procedure
Total BTEX, Total VOCs, Total PAHs, Total SVOCs, and Total PCBs are calculated using detects only.

6 NYCRR -New York State Register and Official Compilation of Codes, Rules and Regulations of the State of New York
6 NYCRR 375 RESTRICTED USE IND SCO - regulatory comparison against NYCRR, Chapter IV, Part 375-6 Restricted Use Industrial Soil Cleanup Objectives

NE - not established
NA - not analyzed
ND - not detected; total concentration is listed as ND because no compounds were detected in the group

Bolding indicates a detected concentration
Gray shading and bolding indicates that the detected result value exceeds established 6 NYCRR IND SCO

**Data Qualifiers:**

J - estimated value
JN - analyte is presumptively present at an approximated quantity
U - indicates not detected to the reporting limit for organic analysis and the method detection limit for inorganic analysis
UJ - not detected at or above the reporting limit shown and the reporting limit is estimated
R - rejected
B - Analyte detected in the associated method blank
* - Duplicate analysis not within control limits
HF - indicate pH was performed in the laboratory outside the 15 minute timeframe.

UH - indicates not detected to the reporting limit for organic analysis and the method detection limit for inorganic analysis and sample prepped or analyzed beyond hold time

**Table 13. Typical Background Metals - Eastern United States**
**National Grid**
**Remedial Investigation Report**
**Greenpoint, New York**

| Metals | Background Levels - Eastern USA (mg/kg) |
|---|---|
| Aluminum | 7,000 - > 100,000 |
| Antimony | < 1 - 8.8 |
| Arsenic | < 0.1 - 73 |
| Barium | 10 - 1,500 |
| Beryllium | < 1 - 7 |
| Cadmium | NE |
| Calcium | 100 - 280,000 |
| Chromium | 1 - 1,000 |
| Cobalt | < 0.3 - 70 |
| Copper | < 1 - 700 |
| Iron | 100 - >100,000 |
| Lead | > 10 - 300 |
| Magnesium | 50 - 50,000 |
| Manganese | < 2 - 7,000 |
| Mercury | 0.01 - 3.4 |
| Nickel | < 5 - 700 |
| Potassium | 50 - 37,000 |
| Selenium | < 0.1 - 3.9 |
| Silver | NE |
| Sodium | <500 - 50,000 |
| Thallium | NE |
| Vanadium | <7 - 300 |
| Zinc | < 5 - 2,900 |

**Notes:**

NE = Not established

mg/kg = milligrams/kilogram

**Notes for Tables 14, 15 & 16**
**Groundwater Analytical Results**
**Remedial Investigation Report**
**Greenpoint Energy Center Site**
**Greenpoint, NY**

**Notes:**

µg/L - micrograms per liter or parts per billion (ppb)
S.U. - standard units
BTEX - benzene, toluene, ethylbenzene, and xylenes
VOCs - volatile organic compounds
PAHs - polycyclic aromatic hydrocarbons
PCBs - polychlorinated biphenyls
PFAS = Per- and polyfluoroalkyl substances
SVOCs - semivolatile organic compounds

Total BTEX, Total VOCs, Total PAHs, Total SVOCs, and Total PCBs are calculated using detects only.
Total PAH16 is calculated using the EPA16 list of analytes: Acenaphthene, Acenaphthylene, Anthracene, Benz[a]anthracene, Benzo[a]pyrene, Benzo[b]fluoranthene, Benzo[g,h,i]perylene, Benzo[k]fluoranthene, Chrysene, Dibenz[a,h]anthracene, Fluoranthene, Fluorene, Indeno[1,2,3-cd]pyrene, Naphthalene, Phenanthrene, and Pyrene
Total PAH17 is calculated using the EPA16 list of analytes plus 2-Methylnaphthalene

NYS AWQS - New York State Ambient Water Quality Standards and Guidance Values for GA groundwater
* indicates the value is a guidance value and not a standard
NE - not established
NA - not analyzed
ND - not detected; total concentration is listed as ND because no compounds were detected in the group

Bolding indicates a detected concentration
Gray shading indicates that the detected result value exceeds NYS AWQS

**Data Qualifiers:**

* = The duplicate result was not within control limits.
B - Analyte detected in the associated method blank
D - Results for dilution
HF - Analysis was performed in the laboratory outside the 15 minute timeframe
J - Estimated value
R - Rejected
U - Indicates not detected to the reporting limit
UH = The results was not detected above the reporting limit for organic analysis and the method detection limit for inorganic analysis and the sample was prepared or analyzed beyond the holding time.
UJ - Not detected at or above the reporting limit shown and the reporting limit is estimated
